a small test with a new command!!!! which worked until we used it. 1

a small test with a new command!!!! which worked until we used it.

but doesn't work now that I tampered with the rendering command. We need to work out when we can add `output_format="all"`

```
mean(sample(40,6))
```

```
## [1] 23
```

which version though?

and what happened? # Let's start again.

and try to save...

```
1:4
```

```
## [1] 1 2 3 4
```

R-3.2.4 being used
